# Dairy Revenue Protection

## Improvements

-  When binding offline, the button for adding new endorsements has been renamed from "Request QCE Form" to "Add Endorsement", to better convey the meaning of the action
-  The detailed view of the Coverage Request columns is changed to show relevant information about the selected request. Columns: "Estimated Actual DRP Revenue" and "Estimated Indemnity Amount" are removed, and "Quarter" and "Coverage level" are added.

			Basis Selection LRP Coverage Price

-  In Premium Quoter, when the Historical Performance option is selected, now it stays positioned on that button selection when changing filters.
-  Fixed issue with incorrect data display in Premium Quoter when selecting different filters.
-  Fixed issue with displaying Actual Prices in Premium Quoter Historical Performance. Data is now showing for all Actual prices that exist for selected criteria.
-  Fixed issue with the wrong display in the Summary list of Active Endorsements. Now summary list shows correct values in columns "Coverage price" and "Net guarantee."
-  Fixed issue with email notification when Requesting Coverage. Now all contacts marked in operation get the notification.

## Livestock Gross Margin

### Improvements

-  Fixed issue with wrong calculation in November

## Administration

-  Improved display when selecting Operation in "AIP Sync". The Operation chosen list was positioned a little off the line where the user was selecting the list and now is always placed below the selection list.
-  Fixed issue for Account preferences not enabling to save selected operation. Now when the operation is selected, the Save Changes button is enabled.

## System wide

-  Fixed issue for sending email price reports for all insurance plans.
-  Fixed issue where the application would get into a reload loop and not be usable in incognito mode in any browser.
-  Fixed issue where the application would get into a reload loop and not be usable in Safari or Firefox with Enhanced tracking protection.
