Dairy Revenue Protection

🔧 Improvements

- ✨ Expected Yield was added to the HTML Price Report and Price Report under Market Dynamics. Users now have an overview of Expected Milk per Cow in all DRP segments.

The screenshot shows a table with two sections. The first section has three rows: 'Previous' (\$0.18, \$0.21), 'Last 7 Days' (\$0.17, \$0.21), and 'Last 30 Days' (\$0.19, \$0.22). The second section has three rows: 'Previous' (\$1.04, \$1.08), 'Last 7 Days' (\$1.02, \$1.08), and 'Last 30 Days' (\$1.05, \$1.10). Below these is a row for 'Expected Yield' with values 4,685, 4,974, 5,535, 5,221, and 4,731. A red arrow points to this row, and a red box highlights it. Below the table is a green bar labeled 'Your Information'.

Previous	\$0.18	\$0.21			
Last 7 Days	\$0.17	\$0.21			
Last 30 Days	\$0.19	\$0.22			
Nonfat Solids	\$1.02				
Previous	\$1.04	\$1.08			
Last 7 Days	\$1.02	\$1.08			
Last 30 Days	\$1.05	\$1.10			
Expected Yield	4,685	4,974	5,535	5,221	4,731

- 💎 Endorsements that were on Request Coverage are only displayed in the AIP Sync tab only when they are linked (or partially linked) with AIP now. This means the user will not see endorsements from Request Coverages for which the process wasn't finished.
- 🐛 Fixed issue with displaying Expected Yield. Expected Yield is always shown now, even when there are no prices for some selected options.

Livestock Risk Protection

🔧 Improvements

- 📄 PDF Price Report was visually improved by adjusting all tables to have the height.

This is not offer of coverage. This institution is an equal opportunity provider and employer.

- "All Types" has been added in Quoter Preferences. This allows the user to see the whole endorsement length range in one place for Swine.
- "All Types" was removed as an option for Swine under Market Dynamics (Price Trends & Price Evolution Analysis) because we don't have data for this type.
- Default commodity target weights were updated to the most frequent selections.
- Fixed issue with incorrect display of endorsement details in summary and detail view
- Fixed issue with the Price Reports to display all prices for End Dates regardless of whether there was a price difference
- Fixed issue with incorrect Sales Effective Date for Historical Performance
- Fixed issue with display of subsidy amount in Premium Quoter

Administration

- The option to see AIP Sync is only enabled for Agency Administrators now. This was done to limit access for matching operations with AIP and to reduce mistakes.

System wide

- We have moved contacts to a separate tab to have a clearer overview of all the important things the Operation Overview tab offers. This is changed for DRP and LRP insurance plans.

Premium Quoter Endorsements **Operation Overview** Market Dynamics Scenario Analysis

Projection Charts Data Preferences Price Report **AIP** **Contacts**

Contacts: Agents

Henry Krause (666666)	Insurance Agent	(612) 470-1355	henry.krause@bozic.io

- ◆ Pagination has been added to the AIP Sync page under Endorsements. To prevent the site from crashing, the data can now be filtered by either 50 or 100 records
- ◆ Extended log-out time when using Chrome so that the system doesn't force unnecessary log-outs.
- 🐛 Fixed issue to save favorite operations.
- ⚡ Optimized performance of Operation List screen, improving responsiveness by 80% in some cases
- ⚡ Optimized performance of AIP operation matching screen, improving responsiveness
