## ✨ Extended Education Module with Included Additional Categories

@maja.pilipovic, @marin.ladovic, @mislav.sirac

We have implemented additional video categories and restricted video previews based on insurance plan and user roles. Additionally, we've integrated an additional announcement section to include "Cattle Market Update".

### ✨ LRP PDF Report

@maja.pilipovic, @luka.trdina, @mislav.sirac

We're excited to announce the implementation of the LIA Endorsement PDF Export feature. This enhancement enables users to effortlessly export all their active endorsements in LIA.

With this feature, users can now download PDF reports directly from the Endorsement page. They have the flexibility to choose between "Summary" and "Detail" reports to best suit their needs. Furthermore, the pages within the PDF report are intelligently grouped by Calendar Year, ensuring organized and easy navigation.

## DRP

### 🔧 Improvements

- 🔧 Fixed the issue where added data was not visible on the Data tab for in the DRP insurance plan. However, upon download, the data was present. The issue has been rectified, and added data is now visible on the Data tab as expected. @marin.ladovic

## LGM

### 🔧 Improvements

- 🔧 Fixed the issue where the Total Premium displayed on certain Endorsements in the LGM insurance plan was not displayed correctly. The Total Premium is now shown in the Total Premium row as it should. @marin.ladovic
- 🔧 Fixed the issue where neither Gross nor Net indemnity amounts were displayed in the Endorsement list. Additionally, we've fixed the Class III floor prices that were incorrect. This issue has been resolved to ensure accurate representation of Gross and Net indemnity amounts, as well as correct Class III prices. @filip.cogelja
