System Wide

✨ Updated Contact Display Logic in AIP Sync tab

@leon.cvrtila

Changed the logic of displaying the contact person on the AIP Sync tab of the Endorsement Page. The system now prioritizes Admin Agents labeled as 'Primary Contact', followed by the first Admin agent on the list. If no Admin Agents are found, 'support@bozic.io' will be displayed. This change applies only to unmatched operations with AIP.

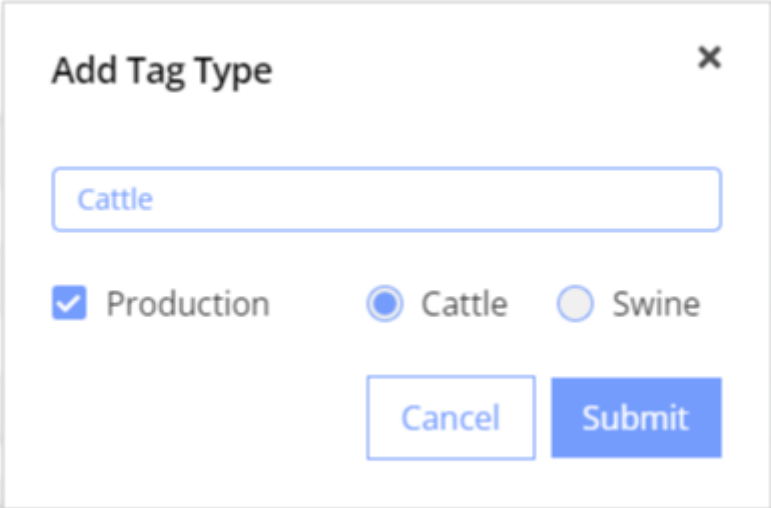

LRP

✨ Production tags for Cattle and Swine

@maja.pilipovic, @marin.ladovic, @mislav.sirac

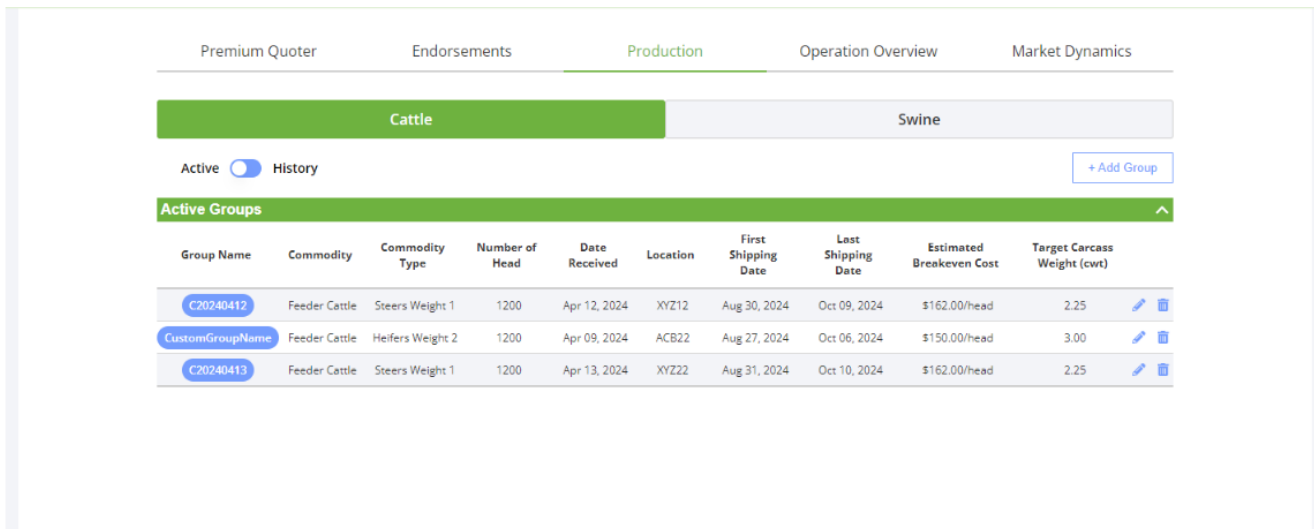

A new feature has been added to the tool to track LRP commodities by their shipping date. Under the LRP insurance plan, a new tab named "Production" has been introduced, which is further divided into two subtabs: Cattle and Swine. The subtabs dynamically display based on the tag type name provided when creating the tag types.

Enhancements to tag types now include a "Production" checkbox. When selected, users can choose between Cattle or Swine, with only one tag type allowed per agency under the LRP plan.

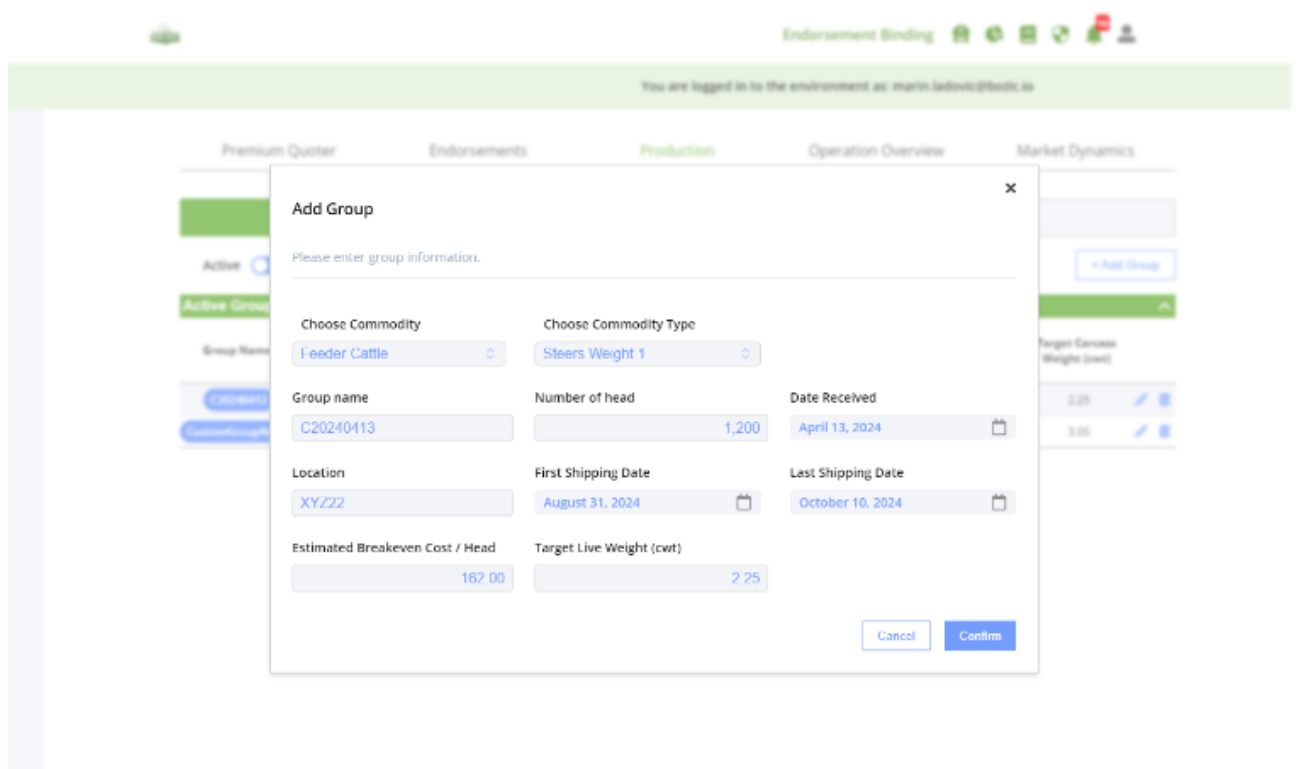

The image shows a modal dialog box titled "Add Tag Type". At the top right of the dialog is a close button (X). Below the title is a text input field containing the word "Cattle". Underneath the input field are three options: a checked checkbox labeled "Production", a radio button labeled "Cattle", and an unchecked radio button labeled "Swine". At the bottom of the dialog are two buttons: "Cancel" and "Submit".

Tables for Cattle and Swine display active and historical groups, categorized by Last Shipping Date, and include pagination and record display options.

Both the Swine and Cattle tabs allow users to create and manage groups with specific options, including default values and naming conventions.

Improvements

-  Fixed the issue on Premium Quoter where Quoter Preferences were not populated correctly and displayed wrong data initially. [@luka.trdina](#)
-  Fixed the issue with delayed LRP alerts to ensure they are triggered promptly upon the release of prices. [@mislav.sirac](#)
-  Fixed the issue with target weights for LRP operations across various sections of the tool, including the Premium Quoter, Endorsement page, Operation Overview, and Market Dynamics. [@luka.trdina](#)

- 🐛 Fixed the calculation issue in the LRP PDF Detail Report for Forecasted Net Indemnity (cwt). Adjusted display for negatives and zeros, changed Total of Forecasted Actual Price (cwt) to SUM, and removed asterisk and disclaimer. @luka.trdina
- 🗑 Improved the quality of LRP PDF Reports for both Summary and Detail by adjusting colors to enhance resolution. @luka.trdina

DRP

🔧 Improvements

- 🐛 Fixed the issue where DRP data order on Operation Overview displayed correctly, but differed from the exported data order in Excel. @filip.cogelja

LGM

🌟 LGM Endorsement tracker improvements

@maja.pilipovic, @luka.trdina, @marin.ladovic

To simplify the LGM display for users, we've added extra information to the tracker. This includes an additional explanation, new columns for clarity, and an "AIP" label for Active endorsements linked with AIP.

New columns "ID" and "<Month> Milk" have been introduced. The "ID" column, displaying unique IDs for each endorsement, is positioned first and starts at 001. The "<Month> Milk" column, showing milk quantity covered for the chosen endorsement month, follows "Covered Months".

Update Indemnity Estimate Add Endorsement

Endorsement List - May 2024													
Hover over "Covered Months" to see the amount of milk covered each month.													
ID	Sales Effective Date	Covered Months	May Milk	Milk (cwt)	Corn (tons)	Soybean Meal (tons)	Deductible (cwt)	Gross Margin Guarantee	Estimated Actual Margin	Estimated Gross Indemnity	Producer Premium	Estimated Net Indemnity	Last Updated
019	11/9/2023	3	1,000.00	21,000.00	76.44	16.91	\$1.00	\$323,620.00	\$313,641.00	\$9,979.00	\$2,874.00	\$7,105.00	4/3/2024

Additionally, a tooltip message is now available next to the Endorsement heading. Users can hover over "Covered Months" to view monthly milk coverage.

Endorsement List - May 2024 Hover over "Covered Months" to see the amount of milk covered each month.

ID	Eff	Covered Months	Deductible (cwt)	Milk (cwt)	Corn (tons)	Soybean Meal (tons)	Deductible (cwt)	Gross Margin Guarantee	Estimated Actual Margin
019	11/9/2023	3	1,000.00	21,000.00	76.44	16.91	\$1.00	\$323,620.00	\$313,641.00

Dec-2023 - 10,000.00 cwt
 Jan-2024 - 10,000.00 cwt
 Apr-2024 - 1,000.00 cwt

✦ Endorsement Detail Values Now Displayed in \$/cwt

@maja.pilipovic, @luka.trdina, @marin.ladovic, @filip.cogelja

To maintain consistency in data presentation across insurance plans, we've updated the endorsement details to adjust values seamlessly when switching between \$ and \$/cwt. The column "Deductible (cwt)" has been renamed to "Deductible". Additionally, the Gross Margin Guarantee, Estimated Actual Margin, Estimated Gross Indemnity, Producer Premium, and Estimated Net Indemnity columns now adjust their values when switching to \$/cwt.

LIA Mobile app for iOS

@patrick.ruzman

We're thrilled to announce the latest update to our iOS app, introducing Endorsement tracker for LRP Insurance Plan users.

We've launched an LRP endorsement tracker that introduces tabs for both Active and Pending endorsements. The tracker includes an interactive chart with draggable properties for displaying more months. Binding request details have been refactored to support LRP implementations. Users can tap on a month to access a modal table with detailed information and view a new layout. The endorsement details feature parameters, a segmented control for price toggle, and an edit button.
